

Improve the performance and extend the life of your equipment with a Performance Inspection from STERIS.

Performance Inspection

Your equipment is a significant investment and plays an important role in your productivity. Let us help keep your equipment in optimal operating condition and prevent unexpected shutdowns with a Performance Inspection from STERIS.

A STERIS PERFORMANCE INSPECTION SERVICE INCLUDES:

- Thorough inspection according to manufacturer's specifications
- Detailed Performance Inspection field report
- Recommendations for continued equipment performance such as:
 - Replacement parts
 - Preventive maintenance packages
 - Technology upgrades
 - Spare parts stocking strategies

YOUR EXPERT FIELD SERVICE TECHNICIAN WILL INSPECT:

- Component installation
- Component integrity
- Component functionality
- Component and plumbing leaks
- Gaskets and valves
- Electrical connections
- Plumbing connections
- E-Stop functionality (if applicable)
- Input/output verification
- Printer operation
- Recent cycle records

At the conclusion of the service, you will receive a summary report that will include a detailed account of the condition of the unit and personalized recommendations for improving the performance of your equipment.
